# Sample Return Calculations

The following examples are included for illustration purposes only. The amounts and all other variables used are hypothetical, are rounded for illustration purposes and are not forecasts or projections. No assurance can be given that the results shown in these examples will be achieved.

**Example 1:** The Note Securities are not automatically called prior to the Maturity Date and the Reference Portfolio Return is negative and lower than the Barrier on the Final Valuation Date.

| Cash Flow Summary           |                                              |
|-----------------------------|----------------------------------------------|
| Sum of Coupon Payments      | \$4.14 (6 Coupon Payments)                   |
| Maturity Redemption Payment | \$50.00                                      |
| Total Payments              | \$54.14 (Annual compounded return of -8.38%) |

**Example 2:** The Note Securities are not automatically called prior to the Maturity Date and the Reference Portfolio Return is negative but higher than the Barrier on the Final Valuation Date.

| Cash Flow Summary           |                                              |
|-----------------------------|----------------------------------------------|
| Sum of Coupon Payments      | \$57.96 (84 Coupon Payments)                 |
| Maturity Redemption Payment | \$100.00                                     |
| Total Payments              | \$157.96 (Annual compounded return of 6.74%) |

**Example 3: The Note Securities are automatically called prior to the Maturity Date since the Reference Portfolio Return is higher than the Call Threshold on the first Call Valuation Date.**

| Cash Flow Summary           |                                              |

| Listing and Secondary Market: | <p>The Note Securities will not be listed on any securities exchange or quotation system. NBF intends to maintain until the Final Valuation Date (or until a Call Valuation Date, if the Note Securities are automatically called (i.e., redeemed) prior to the Maturity Date), under normal market conditions, a daily secondary market for the Note Securities. If the price or the level of the Reference Asset is not reported or published or, in an applicable case, if the trading in the Reference Asset is disrupted or suspended, or if any other Market Disruption Event occurs, NBF will generally deem that normal market conditions do not exist. NBF may, in its sole discretion, stop maintaining a market for the Note Securities at any time without any prior notice to Holders. There can be no assurance that a secondary market will develop or, if one develops, that it will be liquid.</p> <p>In addition, any sale of Note Securities facilitated by NBF may be subject to an early trading charge, deductible from the sale proceeds of the Note Securities. Holders who have purchased Note Securities using the Fundserv network will be limited to the Fundserv network to sell Note Securities. Holders will thereby need to initiate an irrevocable request to sell the Note Securities to NBF. Provided the order is received before 1:00 p.m. (Montréal time) or such other time as may be established by NBF (the "Sale Deadline Time") on any Business Day, the request will be treated on the same day. Any request received after such time or on a day that is not a Business Day will be deemed to be a request sent and received before the Sale Deadline Time on the following Business Day.</p> |

## Suitability for Investment

The Note Securities are not suitable for all investors. In determining whether the Note Securities are a suitable investment for you, please consider that:

- the Note Securities provide no guaranteed Coupon Payments and if the Reference Portfolio Return is lower than the Coupon Payment Threshold on a Coupon Payment Valuation Date, you will receive no Coupon Payment on the related Coupon Payment Date, and you will receive no Coupon Payments over the term of the Note Securities if this occurs on all Coupon Payment Valuation Dates;
- the Note Securities provide no protection for your Principal Amount and if (i) the Reference Portfolio Return is lower than the Call Threshold on every Call Valuation Date and is lower than the Barrier on the Final Valuation Date, and (ii) the sum of the resulting Maturity Redemption Payment and the aggregate Coupon Payments paid during the term of the Note Securities is less than the Principal Amount, you will receive an amount which is less than your Principal Amount over the term of the Note Securities;
- you will not be entitled to any return beyond the Coupon Payments and the repayment of your Principal Amount;
- your Note Securities will be redeemed automatically prior to the Maturity Date if on any Call Valuation Date the Reference Portfolio Return is equal to or higher than the Call Threshold;
- your investment strategy should be consistent with the investment features of the Note Securities;
- your investment time horizon should correspond with the term of the Note Securities; and
- your investment will be subject to the risk factors summarized in the section “Risk Factors” in the Prospectus.

## Risk Factors

The Note Securities differ from conventional debt and fixed income investments; repayment of the entire Principal Amount is not guaranteed. The Note Securities entail downside risk and are not designed to be alternatives to conventional debt or fixed income investments or money market instruments.

Investing in the Note Securities involves risks described under “Risk Factors” in the Prospectus, including, without limitation, the section therein entitled “Certain Risk Factors related to the Index Linked Note Securities”. Purchasers are urged to read the information about these risks, together with the other information in the Prospectus, before investing in the Note Securities. **Holders who are not prepared to accept the risks described in the Prospectus should not invest in the Note Securities.**

## Use of the Reference Asset

The Reference Asset is the intellectual property (including registered trademarks) of STOXX Ltd., ISS STOXX Index GmbH, or their licensors, and is used under license. The Note Securities are neither sponsored nor promoted, distributed or in any other manner supported by STOXX Ltd., ISS STOXX Index GmbH or their licensors, research partners or data providers and STOXX Ltd., ISS STOXX Index GmbH and their licensors, research partners or data providers do not give any warranty, and exclude any liability (whether in negligence or otherwise) with respect thereto generally or specifically in relation to any errors, omissions or interruptions in the Reference Asset or its data.

### NOTICE

The Note Securities will not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act* or any other deposit insurance regime designed to ensure the payment of all or a portion of a deposit upon insolvency of the deposit taking institution.

Amounts paid to Holders will depend on the performance of the Reference Portfolio. None of the Bank, its affiliates, the Dealers, or any other person or entity guarantees that Holders will receive an amount equal to their Principal Amount or guarantees that any return will be paid on the Note Securities. Since the Note Securities are not protected and the Principal Amount will be at risk (other than the minimum Maturity Redemption Payment of 1% of the Principal Amount), it is possible that Holders could lose some or substantially all of their Principal Amount.

For the various risks associated with such an investment, please see the “Risk Factors” section of this document and the “Risk Factors” section in the Prospectus. Any prospective investor must be able to bear the risks involved and must meet the suitability requirements of the Note Securities. Please see the section “Suitability of the Note Securities for Investors” in the Prospectus.
