

This Pricing Supplement (the "Pricing Supplement") together with the short form base shelf prospectus dated June 26, 2026, as amended or supplemented (the "Prospectus"), the prospectus supplement thereto dated June 29, 2026, as amended or supplemented (the "Prospectus Supplement") to which it relates and each document incorporated by reference into such prospectus constitutes a public offering of securities only in the jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities. No securities commission or similar regulatory authority has in any way passed upon the merits of the Note Securities offered hereunder and any representation to the contrary is an offence. The Note Securities to be issued hereunder have not been, and will not be, registered under the United States Securities Act of 1933, as amended and, subject to certain exemptions, may not be offered, sold or delivered, directly or indirectly, in the United States of America or to, or for the account or benefit of, U.S. persons.

Pricing Supplement No. ACCI7828 dated August 20, 2026

(to the Prospectus, as supplemented by the Prospectus Supplement entitled NBC Auto Callable Contingent Income Note Securities (no direct currency exposure) Program)

NBC Auto Callable Contingent Income Note Securities (no direct currency exposure) Program

NBC Auto Callable Contingent Income Note Securities (Maturity-Monitored Barrier) linked to the EURO STOXX® Banks Index, due on September 12, 2033

(non principal protected note securities)

Maximum \$25,000,000 (250,000 Note Securities)

No minimum amount of funds must be raised under this offering. This means that the Bank could complete this offering after raising only a small proportion of the offering amount set out above.

This Pricing Supplement supplements the Prospectus relating to \$20,000,000,000 Medium Term Notes of the Bank, as amended or supplemented, and the Prospectus Supplement. If the information in this Pricing Supplement differs from the information contained in the Prospectus and/or the Prospectus Supplement, you should rely on the information in this Pricing Supplement. Holders should carefully read this Pricing Supplement, the Prospectus Supplement and the Prospectus to fully understand the information relating to the terms of the Note Securities and other considerations that are important to Holders. All three documents contain information Holders should consider when making their investment decision. The information contained in this Pricing Supplement, the Prospectus Supplement and the Prospectus is current only as of the date of each.

The estimated initial value of the Note Securities as of the date of this Pricing Supplement is \$92.70 per \$100 of Principal Amount (being equivalent to a \$1.04 annual discount over the term of the Note Securities), which is less than the issue price. The estimated initial value is not an indication of actual profit that the Bank or its affiliates will realize, nor is it an indication of the price, if any, at which the Bank or any other person may be willing to buy the Note Securities. The actual value of the Note Securities at any time will reflect many factors, cannot be predicted with accuracy, and may be less than this amount. We describe our determination of the estimated initial value in more detail in the Prospectus. The Independent Dealer did not participate in the preparation of the estimated initial value for the Note Securities. See "Description of the Note Securities – Estimated Initial Value of Linked Note Securities" in the Prospectus.

The Note Securities differ from conventional debt and fixed income investments; repayment of the entire Principal Amount is not guaranteed. The Note Securities entail downside risk and are not designed to be alternatives to conventional debt or fixed income investments or money market instruments.

The Note Securities are non principal protected note securities and the Holder may receive an amount that is less than the Principal Amount over the term of the Note Securities. For greater certainty, throughout this Pricing Supplement, “Maturity”, wherever used herein, shall include Maturity Date, Call Date and Special Reimbursement Date.

The Note Securities constitute direct, unsecured and unsubordinated debt obligations of the Bank ranking *pari passu* with all other present and future unsecured and unsubordinated indebtedness of the Bank. **The Note Securities will not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act* or any other deposit insurance regime designed to ensure the payment of all or a portion of a deposit upon insolvency of the deposit taking institution.**

Amounts paid to Holders will depend on the performance of the Reference Portfolio. None of the Bank, its affiliates, the Dealers, or any other person or entity guarantees that Holders will receive an amount equal to their Principal Amount or guarantees that any return will be paid on the Note Securities. Since the Note Securities are not protected and the Principal Amount will be at risk (other than the minimum Maturity Redemption Payment of 1% of the Principal Amount), it is possible that Holders could lose some or substantially all of their Principal Amount. See “Risk Factors” in the Prospectus Supplement and the Prospectus.

An investment in the Note Securities does not constitute an investment in the Reference Asset or its constituent securities. Holders of the Note Securities have no right or entitlement to the dividends and/or distributions paid on account of the Reference Asset or its constituent securities.

The Note Securities are redeemable automatically on a Call Date depending on the performance of the Reference Portfolio. In addition, the Note Securities may be redeemed by the Bank pursuant to a Reimbursement Under Special Circumstances. See “Description of the Note Securities – Reimbursement Under Special Circumstances and Payment” in the Prospectus.

The Note Securities are not redeemable prior to the Maturity Date except on a Call Date, and except by the Bank pursuant to a Reimbursement Under Special Circumstances. See “Description of the Note Securities – Reimbursement Under Special Circumstances and Payment” in the Prospectus. The Note Securities will not be listed on any securities exchange or quotation system. National Bank Financial Inc. intends to maintain, under normal market conditions, a daily secondary market for the Note Securities. National Bank Financial Inc. may, in its sole discretion, stop maintaining a market for the Note Securities at any time without any prior notice to Holders. There can be no assurance that a secondary market will develop or, if one develops, that it will be liquid. Moreover, Holders selling their Note Securities prior to Maturity may be subject to certain fees. See “Secondary Market for the Note Securities” in the Prospectus Supplement.

National Bank Financial Inc. is an indirect wholly-owned subsidiary of the Bank. **As a result, the Bank is a “related issuer” and a “connected issuer” of National Bank Financial Inc. within the meaning of the securities legislation of certain provinces and territories of Canada.** See “Plan of Distribution” in the Prospectus Supplement and in the Prospectus.

The Note Securities constitute Index Linked Note Securities under the Prospectus.

Initial Level: Closing Level on the Issuance Date.

Currency: Canadian dollars

Maturity Redemption Payment: The Maturity Redemption Payment per Note Security will be as follows:

- (i) if the Reference Portfolio Return is equal to or higher than the Call Threshold on a Call Valuation Date, the Note Securities will be automatically called on the applicable Call Date and the Maturity Redemption Payment will be equal to \$100; or
- (ii) if the Note Securities are not automatically called and the Reference Portfolio Return is positive or is nil or negative but equal to or higher than the Barrier on the Final Valuation Date, the Maturity Redemption Payment will be equal to \$100; or
- (iii) if the Note Securities are not automatically called and the Reference Portfolio Return is negative and lower than the Barrier on the Final Valuation Date, the Maturity Redemption Payment will be equal to $\$100 \times [1 + \text{Reference Portfolio Return}]$.

Except for the Coupon Payments during the term of the Note Securities, investors should understand from the foregoing that they will be entitled to a single payment under the Note Securities on either the Maturity Date or a Call Date. If the Note Securities are automatically called, the investment in the Note Securities will terminate as of the applicable Call Date and as such, Holders will receive the Maturity Redemption Payment applicable to such Call Date and not the Maturity Redemption Payment that they would have otherwise been entitled to on a subsequent Call Date or on the Maturity Date if the Note Securities had not been called.

Notwithstanding the foregoing, the Maturity Redemption Payment will be subject to a minimum of 1% of the Principal Amount.

REFERENCE ASSET

Type of Index:	The type of index that is the Reference Asset can be referred to as a price return index, which corresponds to the performance of an equity index measuring the price performance of the equity securities making up the index without taking into consideration the reinvestment of dividends and/or distributions paid on the constituent securities of the index (unlike a total return index).
Impact of the Expected Dividends:	The pricing features of note securities are based on the Bank's assessment of the expected dividends and/or distributions to be paid on account of the constituent securities over the term of the note securities. Everything else being equal, the higher the expected dividends and/or distributions, the better the pricing features of note securities (including the potential return).

Dividend Yield: As of August 12, 2026, the dividends and/or distributions paid on account of the constituent securities that comprise the Reference Asset represented an annual indicative yield of approximately 4.37%, representing an aggregate yield of approximately 30.63% over the term of the Note Securities, assuming that the dividends and/or distributions remain constant and are not reinvested.

All data and information herein is sourced from publicly available sources. None of the Bank, the Dealers or any of their respective affiliates makes any assurances, representations or warranties as to the accuracy, reliability or completeness of such information, and assumes no liability in respect thereof. You should independently investigate the Reference Asset (or the issuer of the Reference Asset) and decide whether an investment in the Note Securities is appropriate. Further information about the Reference Asset is available on the website of the issuer of such Reference Asset and information from this website is not incorporated by reference into this Pricing Supplement.

The following contains a brief description of the Reference Asset. See “Public Information – Index Linked Note Securities” in the Prospectus.

EURO STOXX® Banks Index

The Reference Asset measures the performance of the banks supersector in the Eurozone. The Reference Asset is derived from the EURO STOXX® Index, which itself is a broad yet liquid subset of the STOXX® Europe 600 Index. The Reference Asset is a capitalization-weighted index and classifies the banks supersector according to industry classification benchmark nomenclature and covers financial institutions that provide a broad range of financial services, including retail banking, loans and money transmissions.

Further information about the Reference Asset and its constituent securities is available on the following website: www.stoxx.com and information from this website is not incorporated by reference into this Pricing Supplement.

SUITABILITY OF THE NOTE SECURITIES FOR INVESTORS

The Note Securities are not suitable for all investors. In determining whether the Note Securities are a suitable investment for you, please consider that:

- (i) the Note Securities provide no guaranteed Coupon Payments and if the Reference Portfolio Return is lower than the Coupon Payment Threshold on a Coupon Payment Valuation Date, you will receive no Coupon Payment on the related Coupon Payment Date, and you will receive no Coupon Payments over the term of the Note Securities if this occurs on all Coupon Payment Valuation Dates;
- (ii) the Note Securities provide no protection for your Principal Amount and if (i) the Reference Portfolio Return is lower than the Call Threshold on every Call Valuation Date and is lower than the Barrier on the Final Valuation Date, and (ii) the sum of the resulting Maturity Redemption Payment and the aggregate Coupon Payments paid during the term of the Note Securities is less than the Principal Amount, you will receive an amount which is less than your Principal Amount over the term of the Note Securities;
- (iii) you will not be entitled to any return beyond the Coupon Payments and the repayment of your Principal Amount;

- (iv) your Note Securities will be redeemed automatically prior to the Maturity Date if on any Call Valuation Date the Reference Portfolio Return is equal to or higher than the Call Threshold;
- (v) your investment strategy should be consistent with the investment features of the Note Securities;
- (vi) your investment time horizon should correspond with the term of the Note Securities; and
- (vii) your investment will be subject to the risk factors summarized in the section “Risk Factors” in the Prospectus Supplement and the Prospectus.

USE OF THE REFERENCE ASSET
