Investment Highlights

Reference Asset: The Solactive Gold Miners Hedged to CAD Index 3% Decrement aims to track the performance of the Solactive Gold Miners Hedged to CAD Index TR (the "TR Index"), reduced by a decrement factor of 3.00% per annum calculated daily in arrears (the "Decrement Factor")

Coupon Payment Threshold: -50.00%

Currency: Canadian dollars

Daily secondary market available under normal market conditions

Early Trading Charge: $3.60 per Note Security, declining every 10 days by $0.30 to be $0.00 after 120 days from and including the Issuance Date

The pricing features of note securities are based, amongst other factors, on the decrement factor. Everything else being equal, the higher the decrement factor, the better the pricing features of note securities (including the potential return).

As of the date of the Pricing Supplement, the Decrement Factor materially exceeds the annual dividend yield of the constituent securities of the TR Index. As of November 2, 2026, the dividends and/or distributions paid on such constituent securities represented an annual indicative yield of approximately 0.80%.

The historical dividend yield of the constituent securities of the TR Index has never reached or has never maintained for a significant period of time the Decrement Factor. As a result, the Reference Asset is expected to systematically underperform the price return version of the TR Index (that is, a version that does not reflect the reinvestment of dividends and/or distributions paid on the securities making up the TR Index) over the term of the Note Securities.

The National Bank of Canada (the "Bank") short form base shelf prospectus dated June 26, 2026, as amended or supplemented, the amended and restated prospectus supplement entitled NBC Auto Callable Contingent Income Note Securities (no direct currency exposure) Program dated October 23, 2026, as amended or supplemented and the Pricing Supplement No. ACCI8200 dated November 10, 2026 (the "Pricing Supplement") (together, the "Prospectus"), containing important information relating to the Note Securities described in this document, have been filed with the securities regulatory authorities in each of the provinces and territories of Canada. A copy of the Prospectus is required to be delivered with this document. This document does not provide full disclosure of all material facts relating to the Note Securities offered. Prospective investors should read the Prospectus, and any amendment thereto, for disclosure of those facts, especially suitability considerations and risk factors relating to the Note Securities offered, before making an investment decision. National Bank Financial Inc. may, in its sole discretion, stop maintaining a market for the Note Securities at any time without any prior notice to Holders. There can be no assurance that a secondary market will develop or, if one develops, that it will be liquid.
